## Postdoctoral Program Admissions

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

Resident applicants must have obtained a doctorate degree from an APA or CPA-accredited program and an APA or CPA-accredited clinical internship. The program prefers candidates with doctoral degrees in clinical psychology or clinical neuropsychology, but applicants with degrees in counseling psychology, medical psychology, or behavioral medicine with education and experience in neuropsychology may also be considered. Applications from individuals whose training programs are not accredited at the time of application are not accepted. Preferred applicants completed training at the graduate and internship level consistent with a Major Area of Study in Clinical Neuropsychology. As part of the application packet, APPCN's doctoral training verification form completed by the Director of Training at the applicant's doctoral program stating that all requirements for graduation, including dissertation, will be completed prior to the start date of the residency program is required. Applicants who are not U.S. citizens must have unrestricted authorization to work in the U.S. for the full two-year residency program before their application can be accepted. Applicants must confirm their citizenship/visa status in their letter of interest. We are an equal opportunity program and encourage applications from all qualified individuals regardless of race, ethnicity, religion, sexual orientation, disability, or other minority status.

The program offers a Major Area of Study in Clinical Neuropsychology, is APA-accredited, an APPCN-member ([www.appcn.org](http://www.appcn.org)), and adheres to the Houston Conference Guidelines. Graduates of this program are expected to be eligible for (and are encouraged to complete) specialty certification by the American Board of Clinical Neuropsychology. The program offers two tracks of training: 1) general clinical neuropsychology and 2) neuropsychological rehabilitation. Preferred applicants will have prior training experiences and career goals that are in alignment with the track to which they are applying. All residents have a minimum of 10% protected research time and are eligible for partial financial assistance to attend one scientific conference per year. Residents also participate in a comprehensive didactic series and interdisciplinary case conferences.

**Describe any other required minimum criteria used to screen applicants: N/A**

## Financial and Other Benefit Support for Upcoming Training Year<sup>1</sup>

Annual Stipend/Salary for Full-time Residents	\$54,840 Year 1 \$55,224 Year 2	
Annual Stipend/Salary for Half-time Residents	N/A	
Program provides access to medical insurance for resident?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
<b>If access to medical insurance is provided:</b>		
Trainee contribution to cost required?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Coverage of family member(s) available?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No

<sup>1</sup>Note. Programs are not required by the Commission on Accreditation to provide all benefits listed in this table

## Initial Post-Residency Positions

(Provide an Aggregated Tally for the Preceding 3 Cohorts)

	2020-2024	
Total # of residents who were in the 3 cohorts	7	
Total # of residents who remain in training in the residency program	6	
	PD	EP
Academic teaching	PD = 0	EP = 0
Community mental health center	PD = 0	EP = 0
Consortium	PD = 0	EP = 0
University Counseling Center	PD = 0	EP = 0
Hospital/Medical Center	PD = 0	EP = 7
Veterans Affairs Health Care System	PD = 0	EP = 0
Psychiatric facility	PD = 0	EP = 0
Correctional facility	PD = 0	EP = 0
Health maintenance organization	PD = 0	EP = 0
School district/system	PD = 0	EP = 0
Independent practice setting	PD = 0	EP = 0
Other	PD = 0	EP = 0

Note: "PD" = Post-doctoral residency position; "EP" = Employed Position. Each individual represented in this table should be counted only one time. For former trainees working in more than one setting, select the setting that represents their primary position.
