PHOENIX CHILDREN'S
Hospital

Cleft Lip and Palate Across the Lifespan: *A Focus on Speech-Language Pathology Services*

Course Description

This course will review speech-language pathology services including feeding, early intervention, assessment of articulation and resonance skills, and speech therapy techniques for patients with cleft lip and palate. Topics in orthodontic and surgical management will also be addressed to highlight the interdisciplinary care necessary to achieve the best outcomes for this population. Presentations will include case examples and time will be provided for discussion and interaction with participants.

Course Objectives

Participants will be able to:

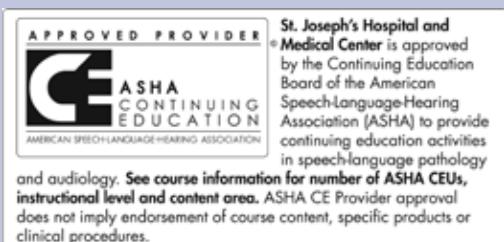

1. Provide rationale for the use of adapted bottles as the recommended feeding method for infants with cleft palate
2. Describe assembly and use of four cleft-adapted bottles
3. List the objectives and indications for NasoLabial Molding
4. Describe the characteristics and progression of early speech and language development in young children with cleft palate
5. Identify “red flags” for referral and timing of early intervention
6. Describe imaging techniques available for evaluating children with velopharyngeal insufficiency
7. Name three distinct surgical procedures for treating velopharyngeal insufficiency in children
8. List at least two factors that affect which surgery is recommended for a child with velopharyngeal insufficiency
9. Identify the common malocclusions associated with Cleft Lip and Palate
10. List three specific speech therapy strategies for treatment of compensatory articulation errors related to velopharyngeal dysfunction

Target audience

Speech-Language pathologists, students, related medical professionals

CEUs

This course is offered for .35 ASHA CEU's (Intermediate level, Professional Area. Partial Credit is not offered.)

AGENDA

October 26, 2018

12:30 pm Arrival and Check-In

1:00 pm Welcome and Introduction to Barrow Cleft and Craniofacial Center
S Beals

1:15 pm Feeding Management of Infants with Cleft Lip and/or Palate
Williams

1:45 pm Infant NasoLabial Molding
P Beals

2:00 pm Early Childhood Speech-Language Management
Scherer

2:30 pm Assessment / Imaging for Velopharyngeal Management
Perry

3:00 pm Break

3:15 pm Surgical management of velopharyngeal insufficiency
Sitzman

3:45 pm Malocclusion
P Beals

4:00 pm Speech Therapy for Cleft-Related Articulation Errors
Cordero

4:30 pm Discussion

4:45 pm Adjourn

Guest Speaker

Jamie Perry, PhD, CCC-SLP, is the Department Chair and Associate Professor in the Department of Communication Sciences and Disorders at East Carolina University. Dr. Perry's research uses MRI and 3D computer technology to study the velopharyngeal anatomy and physiology to further understand speech variations among those with cleft palate.

Conference Speakers

Patricia Ann Beals, DMD, is a craniofacial orthodontist. She serves as Co-Medical Director of the Barrow Cleft and Craniofacial Center and is the Vice President of the American Cleft Palate and Craniofacial Association.

Stephen P. Beals, MD, FACS, FAAP, is a plastic and craniofacial surgeon. He serves as Co-Medical Director of the Barrow Cleft and Craniofacial Center. He has been in private practice since 1986 and is nationally and internationally known for his craniofacial surgery and research contributions to the field. He is also an Associate Professor at Mayo Clinic Arizona and Associate Clinical Professor at Creighton University School of Medicine.

Kelly Nett Cordero, PhD, CCC-SLP, is the Rehabilitation Program Coordinator and a bilingual SLP at Barrow Cleft and Craniofacial Center. She has 17 years of experience presenting on cleft and craniofacial conditions with a focus on culturally and linguistically diverse populations. She is adjunct faculty at Arizona State University and a collaborator on the Americleft speech outcomes project.

Nancy J Scherer, PhD, CCC-SLP, ASHA Fellow, is Professor and Chair of the Speech and Hearing Science department at Arizona State University. Her research and clinical interests include early assessment and intervention for children with craniofacial conditions, parent-implemented training methods to support early speech and language development and international and multilingual multicultural aspects impacting outcomes for early intervention.

Thomas J. Sitzman, MD, MPH, is a Pediatric Plastic Surgeon at Phoenix Children's Hospital. His expertise is in surgical management of children with cleft lip, cleft palate, and velopharyngeal insufficiency. He is also an Assistant Professor of Plastic Surgery at Mayo Clinic Arizona.

Jessica Williams, MS, CCC-SLP, is an SLP at Barrow Cleft and Craniofacial Center, a member of the American Cleft Palate-Craniofacial Association, the Arizona Speech Language and Hearing Association, and is an adjunct faculty member in the Department of Speech and Hearing Sciences at Arizona State University. She also serves as the SLP on the 22q team at Phoenix Children's Hospital.

Registration Form

Cleft Lip and Palate Across the Lifespan: A Focus on Speech-Language Pathology Services

October 26, 2018

Professionals	\$75.00
Students	\$50.00

Registration fee includes: Symposium, snack, access to program materials and continuing education credits.

Refund and Cancellation Policy: A refund, less 20% processing fee, will be made for cancellations submitted in writing prior to October 12, 2018. No refunds will be made thereafter. Barrow reserves the right to cancel or change any program for due causes. Cancellation of a program by Barrow will result in a full refund of tuition. Barrow and SJHMC are not responsible for the refund of travel or hotel expenses under any circumstances.
