Goldman Auditorium
350 West Thomas Road | Phoenix, Arizona

2017 Barrow Neuroscience Nursing Symposium

Overcoming Challenges in Neuroscience Nursing

Purpose

The purpose of the Barrow Nursing Symposium is to provide an educational opportunity for neuroscience nurses, nurses with an interest in neurological illness or injury, and our interprofessional colleagues. The goals are to provide foundational and advanced knowledge, encourage nurse networking, and promote excellence in patient care.

Program Objectives

- Describe the role of interventional therapies in Arteriovenous Malformation (AVM) management.
- Define best practices and systems of care according to established guidelines for stroke patients.
- Identify challenges to medication safety for dosing and oral administration.
- Identify the various outreach programs that are supported through the Barrow Connection.
- Recognize Minimally Invasive Surgery (MIS) techniques used for restoration of global sagittal balance.
- Compare and contrast types of dementia, contributing factors to disease development, and the timing of diagnosis.
- Describe the evidence-based literature for the treatment and clinical care of patients with brain cancer with focus on vaccine and check-point inhibitors.
- Demonstrate the importance of self-care techniques for the professional caregiver.

Guest Faculty

Kathleen D. Pagana, PhD, RN
Professor Emeritus
Lycoming College
Independent Author and Speaker

Sara Regester, RN, BSN
Owner
Directions 4 Wellness, LLC

Joe Stone
Executive Director
The Joe Stone Foundation

Cover photo: Pictured nurse Carol Johnson Chase who passed away in May 2017. Carol was a nurse in neuro ICU and recovery at St. Joseph's for more than 30 years. She was a nurse who exemplified the hospital's core qualities and values. We will remember her for her compassion and service.
