

# Connecting Your Android Mobile Device

There are **three steps** to joining a telemedicine appointment on your mobile device.

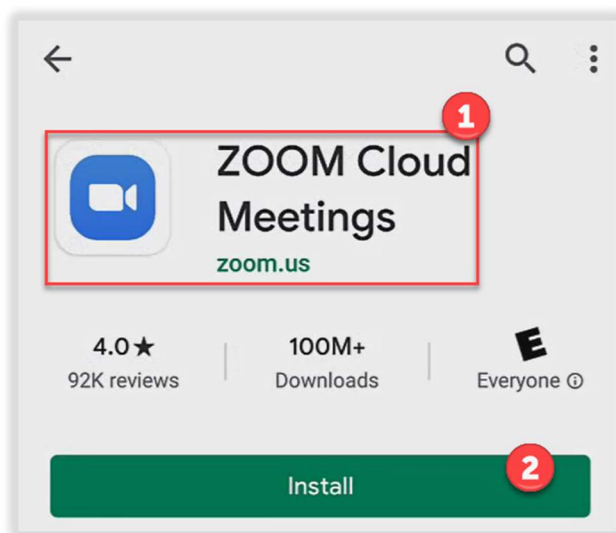

1. **Download the free “Zoom Cloud Meeting” app** from the Android Google Play Store
2. **Launch the Zoom appointment** from your email or calendar appointment
3. **Connect your device’s** audio and video

## Step One: Download the Zoom Cloud Meetings App

- Launch the **“Play Store”** app from your mobile device

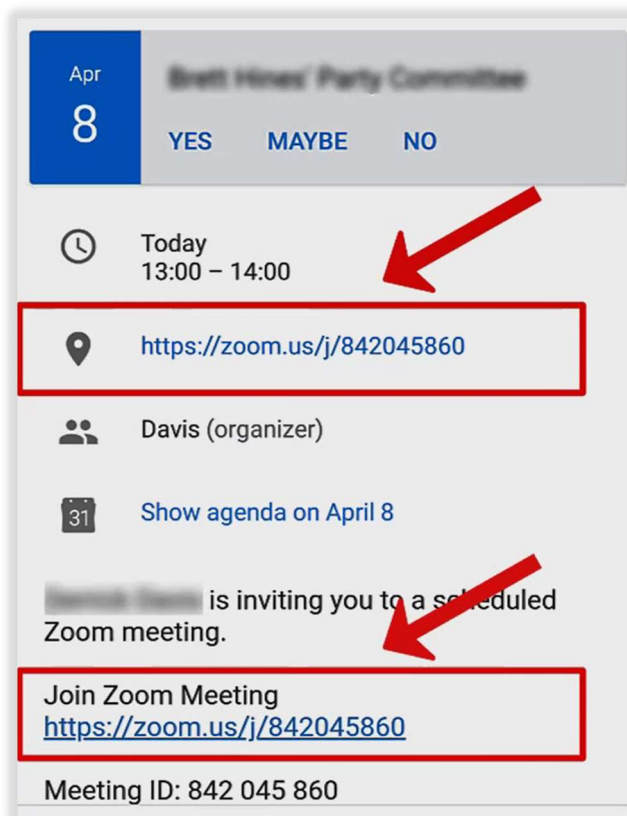

1. Search and select the **“Zoom Cloud Meetings”** app
2. Select **“Install”**

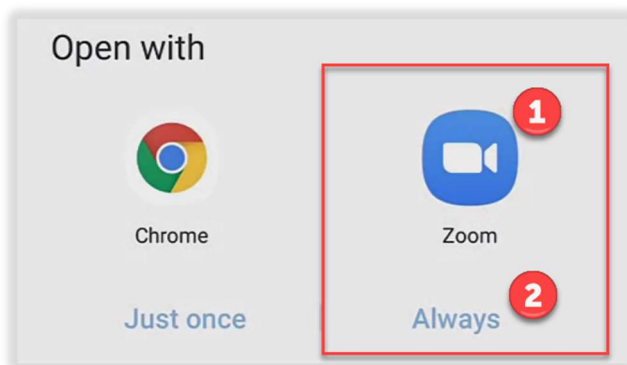

## Step 2: Launch the Zoom appointment from your email or calendar appointment

- Open the **calendar appointment** or **email** for your telemedicine visit (sent to you from the clinic)
- Click on either “**zoom.us**” link

1. Tap the **zoom icon**
2. Select “**Always**” so that your device will know how to open Zoom meetings in the future

### Step 3: Connect your device's audio and video

Note: You may need to tap your screen to see the meeting options and settings.

1. Tap the **“Join Audio”** icon
2. Select **“Call via Device Audio”**
3. Tap the **“Start Video”** icon to
