

Program Overview

Barrow Neuro-Rehabilitative Services offers expert care for people who need intense therapy after a spinal cord injury. The goal of Barrow neurorehabilitation specialists is to help patients have a better quality of life through therapies that help to improve skills, independence, and self-esteem after a spinal cord injury. Specific criteria are identified and must be met to qualify a patient for admission.

Intensity of Services / Participation Requirements

- Therapy services provided five to seven days a week
- Average of three hours of therapy per day, Monday through Friday with additional therapy on Saturday/Sunday
- Medical stability/absence of medical problems that would interfere with participation in therapies
- Must be able to demonstrate progress towards meeting established team discharge goals

This program does not currently serve persons who are:

- Ventilator dependent
- Medically unstable
- Unresponsive
- Under the age of fifteen years
