2026 Barrow Psychology Symposium

April 25, 2026

Course Goal

The 2026 Barrow Psychology Symposium aims to provide critical updates for psychologists working with individuals with a variety of medical conditions, including neurological diagnoses. The symposium will address present issues in ethics, anosognosia and denial, and utilizing CBT in patients with acquired brain injury.

Course Learning Objectives

- Identify three modern ethical dilemmas in inpatient rehabilitation settings, with at least one dilemma related to AI
- Evaluate two effective uses of adaptations for Cognitive Behavioral Therapy principles in individuals with acquired brain injury to address mood, sleep, and pain complaints.
- Identify the phenomenological features that help separate anosognosia and impaired self-awareness from denial in patients with known or suspected brain disorders.

Agenda (Pacific Daylight Time)

8 a.m. Welcome - Introduction

Tiffany Meites, PhD, ABPP, Suzanne O'Connor, PsyD
