

## Barrow Cleft and Craniofacial Center

Ashley Monjares is a beautiful, smart, kind and spirited 11-year-old who likes to draw, and loves to dance and sing. Just like Auggie, the main character in Wonder, Ashley just started the fifth grade at a new school. A patient at the Barrow Cleft and Craniofacial Center, Ashley was born with an extremely rare condition which requires a lot of medical care called ablepharon-macrostomia syndrome with congenital ectodermal dysplasia. Though she has faced the same kinds of fears as Auggie, she finds kindness in the world and has a bright future ahead.
