

## Barrow Cleft and Craniofacial Center

Charlotte Gould is an ambitious fourth-grader making a wonderful difference in the world. Charlotte was born with a cleft lip and palate which would require multiple surgeries at Barrow Neurological Institute. Charlotte, 9, has supported other cleft patients at the Barrow Cleft and Craniofacial Center by donating “Charley Bears” since she was two-years-old. “I want all babies like me to have a bear,” Charlotte told her mother. Each year, Charlotte uses her birthday cash to purchase these unique stuffed bears that have stitches sewn onto their faces from the Cleft Palate Foundation.
