

## Barrow Cleft and Craniofacial Center

Barrow Cleft and Craniofacial Center patient Isaiah Acosta, 17, has never spoken a single word, but he is spreading a powerful message to thousands of children, teens and adults worldwide: 'I may look different, but I am just like you.'

"In the end, we all have the same heart, the same blood," wrote Isaiah, who was born two months prematurely at Dignity Health St. Joseph's Hospital and Medical Center without a lower jaw. "We have to feel good about ourselves inside," he says, "I KNOW who I am, and what I can do. I'm still here, alive, even without a jaw, and I'm happy."
