

## Barrow Cleft and Craniofacial Center

Meet Trigg Ellsworth. He's an energetic 5 year-old, who was born with a cleft lip and palate and is a patient at the Barrow Cleft and Craniofacial Center. Some days are what his mom, Jenny, calls "Disneyland days." Others are full of long doctor's appointments—speech therapy, orthodontics, psychology, and plastic surgery; talks of braces and bone graphing surgery. Even when it seems like more than what any human can handle, Jenny says the cleft team at Barrow always walks them through the process and are their family's saving grace.
